CLASSIFICATION RECORD · ARTICLE 6 & ANNEX III

EU AI Act Risk Classification Record

Documented Annex III classification for the operator's AI system.
Required input to the Art. 9 risk-management file.

Document reference	VSP-RC-2026-0610-SAMPLE
Prepared for	Acme HR GmbH (SAMPLE)
Issue date	10 June 2026
Classification	Confidential — sample for evaluation
Regulatory frame	EU AI Act (Reg. 2024/1689) · GDPR (Reg. 2016/679)
Issued by	Verispect · verispectai.com

1 · Determination

Classification: HIGH-RISK. The assessed system matches **Annex III §4 — employment, recruitment and worker management**. The full suite of high-risk obligations applies, operative **2 August 2026**.

System assessed	CandidateRank AI — LLM-assisted candidate screening
Assessment basis	Structured questionnaire, 11 questions (Annex III screen + Art. 5 screen)
Decision influence	Model output materially influences selection decisions
EU/EEA exposure	Yes — candidates located in the EU
Prohibited practices (Art. 5)	None indicated
Assessed on	10 June 2026

2 · Matched category

Annex III reference	Why it applies
§4 — Employment, recruitment & worker management	The system screens, ranks and evaluates natural persons in a recruitment context; outputs materially influence hiring decisions.

3 · Obligations engaged

Article	Requirement	Verispect coverage
Art. 9	Risk management system	Continuous drift/bias telemetry feeds the risk file; this record is its first entry
Art. 10	Data & bias governance	8-characteristic fairness probe evidence, monthly
Art. 11	Technical documentation	Auto-generated DPIA + Annex IV pack (companion document)
Art. 12	Record-keeping	Timestamped audit log
Art. 13	Transparency	Exportable evidence + methodology statement
Art. 14	Human oversight	Flagged events routed for human review
Art. 15	Accuracy & robustness	Consistency probes + drift tracking
Art. 72	Post-market monitoring	Continuous probe system (core function)

4 · Review triggers

Re-classification is required if any of the following change: system purpose or domain; the degree of decision influence; deployment geography; or the matched Annex III category following legislative amendment (e.g. the pending Digital Omnibus). Verispect prompts re-assessment on each material change.

5 · Legal notice

This report provides monitoring evidence and decision support. It is not legal advice, does not constitute a conformity assessment under Article 43 EU AI Act, and does not certify compliance. A PASS indicates consistency with the recorded baseline; it does not independently certify that the baseline itself was unbiased. The operator remains responsible for conformity (GDPR Art. 24; AI Act Ch. III).

Attestation

Generated by	Verispect Automated Compliance Engine v1.1
Method	Deterministic semantic scoring (all-MiniLM-L6-v2 cosine similarity) against recorded baselines
Reproducibility	All scores reproducible from logged probe inputs and stored baselines
Reference	VSP-RC-2026-0610-SAMPLE
Issued	10 June 2026
Status	System-generated record — no signature required
